

**REMARKS**

With this Amendment, dependent claims 22-23 and 28 have been amended to correct several informalities. In particular, claim 22 has been amended to add the word “current” after the phrase “second free-wheeling” contained on the last line of that claim. Claims 23 and 28 have each been amended to now recite from claim 22. These amendments are not intended to affect the scope of the claims. No new matter has been introduced into the application. As such, this Amendment is believed proper under 37 CFR § 1.312.

Applicant further notes that several amendments to the specification were previously requested in a Preliminary Amendment filed together with the application on February 3, 2006. From a review of the published version of the application, it is unclear whether all amendments to the specification were fully considered. Accordingly, Applicant request that the Preliminary Amendment be considered in full.

Respectfully submitted,

FAEGRE & BENSON LLP
